THE MISSING BALLOONISTS SAFE .- Private in telligence from Kingston, C. W., announces the the intrepid aronaut, and Mr. Haddock, of the Watertown (N. Y.) ID A Panama correspondent, writing on the 18th September, states that the Isthmus was very free from tropical fever, and exceedingly healthy for the season. The U.S. ships Merrimac and Vandalia had left for Valparaiso and home. The Saranac was the only vessel at Panama. Professor Dimitry had sailed in the steumer Guatemala, for Punta Arenas. The Guatemala was much admired, and would, it was hoped, open a good trade with Central America.

In New York, on Tuesday evening, a mys terious affair came to light in the Sixth ward, the dead body of a man being found in a bed in a house on the Five Points, corner of Worth and Little Water street, covered with blood, he evidently having been murdered but a few minutes before. From papers found on his person, it is supposed that the name of the deceased was McGee. The house in which he was murdered was occupied by a man named John H. Benja min, and his mistress, Jane Bradford. The forme is a vender of hot cakes about the Park, while his mistress gained a livelihood by at times harboring girls of bad repute.

The Panama Star says of the Chiriqui gold diggings:

From the most careful investigation, and after duly weighing all the evidence it was possible to obtain, it appears that, up to the present time, about 400 pounds weight of golden images have been obtained from the graves; but taking into account the amount of copper with which some of them are alloyed, it may be fully estimated that them are alloyed, it may be fully estimated that 300 pounds of pure gold represents the entire quantity. Calculating the value at \$250 per pound, this would give the sum of \$75,000; and as it is generally admitted that during the month of July at least 1,500 persons were at work at Bugabita, this represents the labor of 46,000 persons, with an average guin to each of \$1.61, or deducting fifty cents for the value of their labor, of \$1.11; but from this calculation no inference can be drawn, as while some obtained large quantities, others were entirely unsuccessful."

LAMENTABLE STATE OF AFFAIRS IN VENEZUELA The Boston Traveller says:
"A file of the St. Thomas Tidende, to Sept 1

received at this port, contains an important docu-ment, showing the terrible condition of affairs in Venezuela, where a war of races, fauned by politi-cal and military aspirants, is rapidly depopulating that beautiful country, possessing one of the finest climates and most fertile soils upon the face of the globe. The document in question is an ap-peal for protection of the foreign consuls at Ciudad Bolivia, to the Governors of the French, Danish and English West India Islands. In this appeal, the consuls say that the coutest now young on is and English West India Islands. In this appeal, the consuls say that the contest now going on is not one of ordinary revolution, having for its object a political end, but on the contrary the motto now is, "Violence, Death and Pillage." The acts of atrocity committed by these vaudals are, they say, so numerous that it would be difficult to enumerate them. In the provinces of the interior whole communities, with their inhabitants, have disappeared. Nothing but foreign intervention, probably, will save the country from entire destruction."

FROM ARIZONA .- Dates from Arizona City to the eth of September say that an express has arrived from Fort Mohave for the commanding general of California, General Clarke, bringing news of the complete submission of the Mohave Indians by Major Armstead. They acknowledge a large number of their tribe killed, surrender a fine tract Major Armstead. strates clearly the success of Lieut. Ives' expedition of last year.

The overland mail company's station, 60 miles above Fort Yuma, was robbed of all its horses by Mexicans, and the station-keeper left for dead. A portion of the Americans on the Glia river determined to drive off all the Mexicans on the river, on account of this outrage. A collision occurred in which it is said six Mexicans were killed. There being no law or officer in Arizona no arrests have been made. The Mexican population at the Glia and Colorado mines are much alarmed. The returns of the election of a delegate to Congress, so far as heard from, indicate the return of Lieut. Mowry without opposition.

Settlements of emigrants have commenced on the San Pedra river. The Apachas have become very bold in their depredations, and Col. Reese, of Fort Buchanan, has applied for reinforcements.

IMPORTANT FROM BURNOS AYRES -Mr. Yancey's Mediation a Failure, &c .- By the arrival of the Lightning, at New York, we have advices from Buenos Ayres to August 16th, ten days later.

Buenos Ayres to August 16th, ten days later.

On the 2d of August a party of Urquiza's troops invaded the Buenos Ayrean territory, but a few shots sent them flying with no casualties. A few days afterwards Urquiza's four steamers of war, that were fitted out at Montevideo, made their appearance in the outer roads of Buenos Ayres. Two provincial vessels offered them battle, and the whole city assembled on the bank of the river to see the fight. The four steamers would not fight, but on the appearance of their opponents steamed away to Colonia, in the Banda Oriental, and the Buenos Ayrean vessels concluded not to follow.

but on the appearance of their opponents steamed away to Colonia, in the Banda Oriental, and the Buenos Ayrean vessels concluded not to follow.

On the 14th of August the peace negotiations came to a more speedy termination than was anticipated, the preliminaries on each side being rejected, the intervention of Mr. Yancey fell to the ground. The Confederate Government required an immediate suspension of hostilities, the Government of Buenos Ayres the retirement of Gen. Urquiza from public life. The former was obvicusly inadmissable by itself, and the latter could hardly be expected during the present peculiar organization of the Provincial Governments. On the 13th of August, an agent of Urquiza's, Don Frederico Segui, not knowing that the negotiations had been terminated, arrived at Buenos Ayres to confer with Mr. Yancey. He was allowed to land; but the following mysterious paragraph, published in the Buenos. Ayrean Commercial Times of the 13th, intimate that his interview with the American Minister was rather a stormy one:

"By the Assuncion yesterday arrived Don Frederico Segui, from the Param, with complurications for Mr. Yancey from the Central Government. But the 'peace conference' at the hospitable table of Mr. Yancey received an unwonted check last night—plates, bottles, &c., amplying the place of pleasant words among his guest, and Mr. Yancey having had his spectacles broken in the fay, it is probable be will now see clearer into the nature of South American diplomacy."

The next day the Government ordered Senor Sugui to embark at once and leave the city, which be did without delay.

WASHINGTON NEWS AND GUSSIP.

A NEW ARGUMENT IN HIS FAVOR .- Each su ceeding mail, as it arrives develops political Douglasism in some new or at least differing phase. In Ohio, under the manipulation or rather mouthings of Mr. Douglas himself, it was recently an effort to make the South content with an empty declaration or admission of her rights in the Territories, accompanied with the advocacy of a doctrine with reference to the power of squatters to lawfully nullify those rights at will, designed to ecure the favor of abolitionism.

To-day we have from Mobile another phase of this same very slippery Douglasism. designed, of ourse, for that particular latitude. The Mobile Register, the journal of the ex-Minister to Mexico. and Douglas organ, earnestly electioneers for Southern favor for Douglas, upon the plea that, after all, Douglas means by his theory concerning popular rights to secure an eventual general pub acknowledgment of the right of the South wholly independent of Congressional action, to reopen the African slave trade. The Register' argument to this end is as ingenious as bold, and far more ingenuous than Mr. Douglas's personal defences of his positions to curry favor with abolitlenism-far more ingenuous.

But, while Mr. Douglas is engaged in outbidding the Republican leaders for abolition support, it will require more sophistry than the talented editor of the Register possesses (and he evidently possesses much more than his idol) to satisfy the South of the intensity of Douglas's pro-slaveryism as seen through his (Mr. Forsyth's) editorial spec tacles. Nor will Mr. F.'s current labors do ver much for the cause of Mr. Douglas at the North; where the quotation of his doctrine as affording the only hope of securing the speedy reopening of the African slave trade can hardly increase the popularity he is striving to secure in that quarter.

SURVEYS IN FLORIDA.-Letters of instruction to the Surveyor General of Florida relative to the survey of a portion of the southern everglades are being prepared at the General Land Office. The deputy surveyor, who contracted to survey the most southerly of the line of townships yet contracted for, having been driven back to Tampa by hostile Indians, after he had completed a portion of his work, has stated that in order to enable him o secure a second outfit, and make another effor o presecute the work, he will require additional compensation and a larger contract. The Surveyor General has therefore been instructed by the General Land Office to extend the contract and make a small increase on the amount previously greed upon.

WASHINGTON, Sept. 27.—Voluminous dispatches were received at the Navy Department this morn-ing from Commodore Tatnail, of the East India were received at the Navy Department this moving from Commodore Tatnail, of the East India squadron, giving an account of the battle between the Chinese, English and French. They were considered in Cabinet Council to-day. It appears that the Chinese, from the treatment of our Minister and American citizens at Peibo, entertain none but the friendliest feeling towards the United States.

States.

The reported difficulty between Secretary Case and the Russian Minister in regard to the Northwest Coast, is totally unfounded. The Secretary states that there is no dispute in regard to that matter, and no correspondence has occurred with

reference to it.

As an evidence of the good feeling entertained by the Liberal Government of Mexico towards citizens of the United States, President Juarez has extended to a citizen of New Jersey valuable mining facilities in the State of Sinaloa, which were to expire on the 1st of October next, for two years longer.

The Duke di Licignano, who has been recognized by our Government as Consul General for his Majesty the King of the Two Sicilies, has arrived and entered upon his duties.

The Associated Press dispatch says:

Washington, Sept. 28.—The dispatch received by our Government narrate with minuteness the recent events in China. Flag Officer Tatnall says the British officer in charge of the gunboats, recent events in China. Flag Officer Tatnall says the British officer in charge of the gunboats, having visited him, said nothing about sid, but his silent appeal was powerful indeed. During the few moments he was on board the Powhatan he would look anxiously at his Admiral and at the boats. "After he left," continues Commodore Tatnall, "I held a conversation with our Minister, Mr. Ward, and he agreed with me perfectly that, under the circumstances of our position with the English, and the aid the Admiral had tendered me the day before, I could do no less than tow the boats to his relief.

"I made an offer which was thankfully and promptly accepted—while the boats were making fast to the hawsers, which I reeved astern, I insisted on Mr. Ward and his suite leaving the Toey-wan and going on board one of the junks,

Toey-wan and going on board one of the junks, for reasons which will be obvious. He at first reluctantly yielded and left us, but soon returned in one of the English boats, declaring that as the Toey-wan was his home and going under fire with his approbation and concurrence, would remain in her. I reluctantly yielded to his gallant im-

pulse."

The boats were towed through the British line to within a short distance of the Admiral whose to within a short distance of the retired to within a short distance of the Admiral whose flag was flying, when casting them off, he retired to the rear of the line and anchored for the night The commander took up this position as it might enable him to aid the wounded, and, should boats be sunk, to rescue their crews, in other words, "to sflord all aid consistent with neutrality." Havsford all aid consistent with neutrality." Having been informed by a British officer that the Admiral was dangerously wounded. Commodore Tattnall went in a barge to visit him. When within a few feet of the Cormorant, a round shot struck the boat, and killed coxswain Hart, of Brooklyn, N. Y., and slightly wounded Flag Lieutenant Trenchard. They reached the Cormorant before the boat entirely sunk.

Com. Tattnall says the Chinese Commissioners had previously notified Minister Ward of their arrangements, and requested him to accompany

arrangements, and requested him to accompany the British and French Ministers to the Peilio. To this he consented, thereby, to a certain extent, assuming the same platform with the latter. The sincerity of the Commissioners was much doubted

Correspondence of The Star.

GEOLOGIOWN, Sept. 29, 1859. Coroner Woodward held an inquest, yesterday in the First Ward of your city, over the remains of a colored boy about 16 years of age, by the name of Aleweges Bronaugh, who came to his death in the following manner: On Sunday before last Bro-naugh had driven Dr. H. Magruder, of our city, (to whom he was bound,) out in his carriage to visit some patients; while out, and during the temporaryabsence of the Doctor from his carriage, another colored boy, about 14 years of age, by the name of Alfred Jones, a slave to Mr. G. A. Arnold, came up, took from under his jacket a small bottle, and asked Bronaugh if he would take something to drink. B. answered in the affirmative, took the bottle, and swallowed a draught of its contents. He was soon after taken sick, and commenced vomiting. The Doctor, on learning what he had done, hastened home with him and gave him an emetic, for the purpose of relieving his stomach of the liquid. The symptoms of the boy indicating poison, inquiry was made as to the contents of the bottle; when it was ascertained that it contained a preparation of corrosive sublimate and alcohol, which had been used for destroying insects, and which the boy Jones had stolen out of the house. Bronaugh was removed to the house of his father, in the First Ward, where he expired on Tuesday nigut. The jury, after hearing all the facts, rendered a verdict "That he came to his death from the effects of poison, given to him by one Alexander Jones." Jenes was tried before Justice Drury, of Washington, this morning.
